This location classification 1^{EW} - Erste Lage stands for the very best vineyards in a wine-growing region and only applies to grape varieties typical of the region.

Ried Preussen-Nussberg 1^{EW}

For the first time documented in 1501, named after the Royal councillor Heinrich Preussel – not after the Prussians, as often mistakenly claimed. The single vineyard Preussen is located in the “Mittlere Schoss” (central part) of the vineyard area “Nussberg” which can be divided into three terraces. The single vineyard Preussen has always been considered as the showpiece of the Wiener Nussberg and brings about Riesling wines and Wiener Gemischter Satz with unbelievable mineral character and complexity.

This location classification **1^{GW}** - Erste Lage stands for the very best vineyards in a wine-growing region and only applies to grape varieties typical of the region.

Ried Langteufel-Nussberg 1^{GW}

The single vineyard Langteufel is part of the „Nussberg“ vineyard. The name is derived from the shape of the plot. The Langteufel vineyard is a long, wedge-shaped vineyard exposed to the south-west, which has always been very difficult to cultivate. The hewers used to curse: „The devil is the Lang“. This location was first mentioned in a document in 1384 as „Langteufel am Nusper“. The Langteufel vineyard is not dissimilar to the Preussen vineyard and is characterised by sandstone with a high quartz content and marine deposits.

2021 Ried Langteufel-Nussberg 1^{GW}

Wiener Gemischter Satz DAC 0,75 l

Chardonnay, Pinot Blanc, Pinot Gris, Neuburger and a little bit of Traminer are the ingredients of this Wiener Gemischter Satz. In the nose one can find a variety of aromas, from quince over tobacco to biscuit. The Burgundian stylistics with its subtle reduction result in a very firm wine with a salty minerality. A Wiener Gemischter Satz with an ageing potential of 10 years and longer.
